IOANNIA

The city of Ioannina, next to the lake Pamvotis, is the capital of Epirus, northwestern Greece. Lake Pamvotis lies at the centre of a 480 metre-high basin in a picturesque mountain setting, with the Kyra Frosyni Island in its middle and the sprawling city of Ioannina on its western shores.

Natural beauty, historic and modern buildings come together at Ioannina, offering a vibrant and contemporary city comprising the most important commercial and cultural centre in Epirus and north-western Greece.

The Archaeological Museum of Ioannina exhibits finds from Epirus ranging from the Paleolithic period to Roman times. They include artefacts from the sacred area of what claimed to be the oldest-known oracle in ancient Greece in the Temple of Zeus at Dodona
